WHAT HAPPENS WHEN WE AGE?
Collectively, these changes cause:
- Decreased mobility
- Gait changes
- Predisposition to falls with injury

BY 2050
Around a quarter of the world’s population will be 60 years or older. Staying healthy and maintaining an active lifestyle will be crucial for many of these people.

HOW DO PEPTAN COLLAGEN PEPTIDES SUPPORT HEALTHY AGING?
Peptan is a collagen protein that is:
- Bioactive
- Natural
- Easily digestible

Peptan has been demonstrated in science to promote mobility by simultaneously maintaining joint and bone health. Collagen peptides can also support muscle health.

PEPTAN, A NUTRITIONAL SOLUTION
- Dairy
- Powder drinks
- Beverages
- Tablets & capsules
- Nutritional bars
