COLLAGENS & GELATINS
INGREDIENTS FOR A SUSTAINABLE FUTURE

"WE WONT LET NATURE GO TO WASTE"
By transforming protein co-products into valuable collagen and gelatin-based ingredients, we give nature a second life.

"WE TAKE RESPONSIBILITY SERIOUSLY"
We are producers - operating in a responsible manner to provide safe, reliable ingredients consumers can trust.

"OUR FUNCTIONAL & HEALTH INGREDIENTS SATISFY CONSUMERS"
We bring benefits to consumers by maximising the endless possibilities of the unique collagen molecule.
COLLAGENS & GELATINS
INGREDIENTS FOR A SUSTAINABLE FUTURE

In a world of limited resources and population growth, Rousselot is committed to preserving the value of our natural resources, such as water, energy and materials nature offers us. As part of Darling Ingredients, a global leader in converting proteins and fats into sustainable food, feed and fuel ingredients since 1882, repurposing nature’s co-products is part of our DNA. Continue reading to learn how Rousselot contributes to a resource-efficient, circular economy.

“WE TAKE FULL RESPONSIBILITY”
We responsibly produce safe, reliable ingredients consumers can trust

- Full traceability, high quality & safety standards
- Environmentally-conscious operations
- Supporters of animal welfare legislation
- Give back to our communities
- Provide a safe & healthy workplace

Environmental footprint reduction 2012-2017

-8.5% CARBON FOOTPRINT
-15% ENERGY CONSUMPTION
-31% WATER CONSUMPTION

ADDITIONAL 10% REDUCTION TARGETS DEFINED FOR 2017-2022

“WE WON’T LET NATURE GO TO WASTE”
By transforming protein co-products into valuable collagen and gelatin-based ingredients, we give nature a second life. What isn’t used in Rousselot’s premium product line is repurposed for feed, fuel or fertilizer applications. Nothing goes to waste.

“MAKING CONSUMERS HAPPY WITH OUR FUNCTIONAL & HEALTH INGREDIENTS”
We bring benefits to consumers by maximising the endless possibilities of the unique collagen molecule

Collagen bioactive ingredients for a world of health benefits: bone and joint health, skin beauty, sports recovery, healthy aging.

Functional gelatins with no e-number, enhancing texture and taste in food products and making a clear difference.

Collagen-based solutions that help to advance medical science.

The future of our world in numbers

- Almost 10 billion people in 2050
- 20% increase in animal protein production between 2020-2030
- 0% waste goal, achieved by making full use of animals intended for human consumption

Environmental footprint reduction 2012-2017

-8.5% CARBON FOOTPRINT
-15% ENERGY CONSUMPTION
-31% WATER CONSUMPTION

ADDITIONAL 10% REDUCTION TARGETS DEFINED FOR 2017-2022
